

AQUEA | SKIMMER

MODEL CONC - FOR CONCRETE POOLS AND SPAS

Developed in collaboration with industry, the AQUEA Skimmer range improves installation, reliability, performance and ease-of-use for builders, plumbers and pool users.

AQUEA's concrete skimmer models come ready to hang to steelwork - offering quick installation and dependable, hassle-free performance in Australia's tough conditions.

Key features include:

- Heavy duty one-piece body construction
- Complies with AS1926.3-2010 (with child-resistant lid fitted)
- 5.5L patent-pending SWINGLOC® basket
- Construction caps improve worksite safety and keep debris out of skimmer during construction
- Unique overflow valve for precise waterline control
- Pressure Test Cap Kit for easy pipework testing
